Allowable Subject Matter

1. Claims 1, 3-7, 9-12, 14-17 and 19 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of the independent claims 1, 5, 10 and 15 are the inclusion of the following limitations that are not found in the prior art and they are uniquely distinct features. The closest prior art is French et al. (2003/0041167 B1).

French discloses a method and a system for management of a distributed data processing system on behalf of a plurality of management customers. The network management system is able to provide security at logical boundaries between networks. Geographic location identifiers are associated with endpoints, systems, and networks, thereby allowing network resources to be identified based on geographic location information.

However, this art fails to anticipate or render the following limitations:

"Claim 1: sending an authorization code to allow an execution of the application if the device is within the predetermined operating region; and

wherein the protection system generates a digital signature for the geographic identifier."

"Claim 5: wherein a logic included in the geographic database generates a digital signature for the geographic indicator; and

wherein if the device is within the predetermined operating region, an authorization code is generated so as to allow the application to operate."

"Claim 10: means for sending an authorization code to allow an execution of the application if the device is within the predetermined operating region; and

wherein a digital signature is generated for the geographic indicator."

"Claim 15: instructions for sending an authorization code to allow an execution of the application if the device is within the predetermined operating region; and

wherein a digital signature is generated for the geographic indicator."

3. The dependent claims 3, 4, 6, 7, 9, 11, 12, 14, 16, 17 and 19 are allowed because they were originally found to include a unique feature not found in the closest abovementioned art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
